Paper 1

Wednesday

20 August 2025

1 hr 45 mins

Candidates answer on the Question Paper.

Additional Materials: Insert

**READ THESE INSTRUCTIONS FIRST.**

Write your name and index number on all the work you hand in.

Write in dark blue or black pen.

You may use a 2B pencil for any diagrams or graphs.

Do not use staples, paper clips, glue or correction fluid.

Answer **all** questions.

The Insert contains additional resources referred to in the questions.

The number of marks is given in brackets [ ] at the end of each question or part question.

<b>Marks</b>	<b>50</b>
--------------	-----------

This document consists of **12** printed pages and **1** Insert.

[Turn Over

Answer all questions.

**1 Cluster 1: Geography in Everyday Life**

- (a) A group of students conducted a geographical investigation on reasons why the Dover-Medway and Mediapolis areas were selected for new residential developments. They studied factors such as accessibility, proximity to amenities and services, and quality of life.

Study Fig. 1.1 (Insert), which shows the location of upcoming residential areas in the Dover-Medway and Mediapolis region.

The students designed a closed-ended questionnaire to test the hypothesis: "Residential developments are more likely to be located near public transport and educational institutions."

- (i) With reference to Fig. 1.1, describe some factors that may have influenced the selection of Dover-Medway and Mediapolis for new residential developments.

.....

.....

.....

.....

.....

.....

.....

**[3]**

- (ii) With reference to Fig. 1.1, state **three** questions and response options which the students could use for their closed-ended questionnaire to investigate residents' views on the suitability of these locations for housing.

.....

.....

.....

.....

.....

.....

.....

**[3]**

(iii) Suggest how the students could manage the limitations of unforeseen factors affecting the study.

.....  
.....  
.....  
.....  
.....  
.....

[3]

(b) Another group of students wanted to investigate how changes in weather conditions affect public use of the Kent Ridge Park.

The students wanted to test the hypothesis: "Fewer people visit public parks when temperatures are above 30°C." They gathered data on daily temperatures and number of park visitor over ten days, shown in Table 1.1 (Insert).

(i) State the temperatures on the days with the highest and lowest number of visitors.

.....  
.....

[2]

(ii) Using Table 1.1, evaluate how well the data supports the students' hypothesis.

.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....

[5]

(iii) Evaluate the validity of the investigation conducted by the students.

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

**[4]**

**[Total: 20]**

**2 Cluster 2: Tourism**

(a) Explain why people are motivated to travel.

.....

.....

.....

.....

.....

.....

**[3]**

(b) Table 2.1 shows changes in the average number of annual paid leave days and the number of tourist departures (millions) of a developed country from 2015 to 2023.

**Table 2.1**

**Average number of annual paid leave days and number of tourist departures**

	2015	2016	2017	2018	2019	2020	2021	2022	2023
Average number of annual paid leave days	7	8	9	10	11	12	13	14	18
Number of tourist departures (millions)	6.4	7.2	7.8	10.5	11.2	0.04	0.2	8.6	15.3

(i) Using Table 2.1, account for the relationship between the average number of annual paid leave days and number of tourist departures from 2015 to 2023.

.....

.....

.....

.....

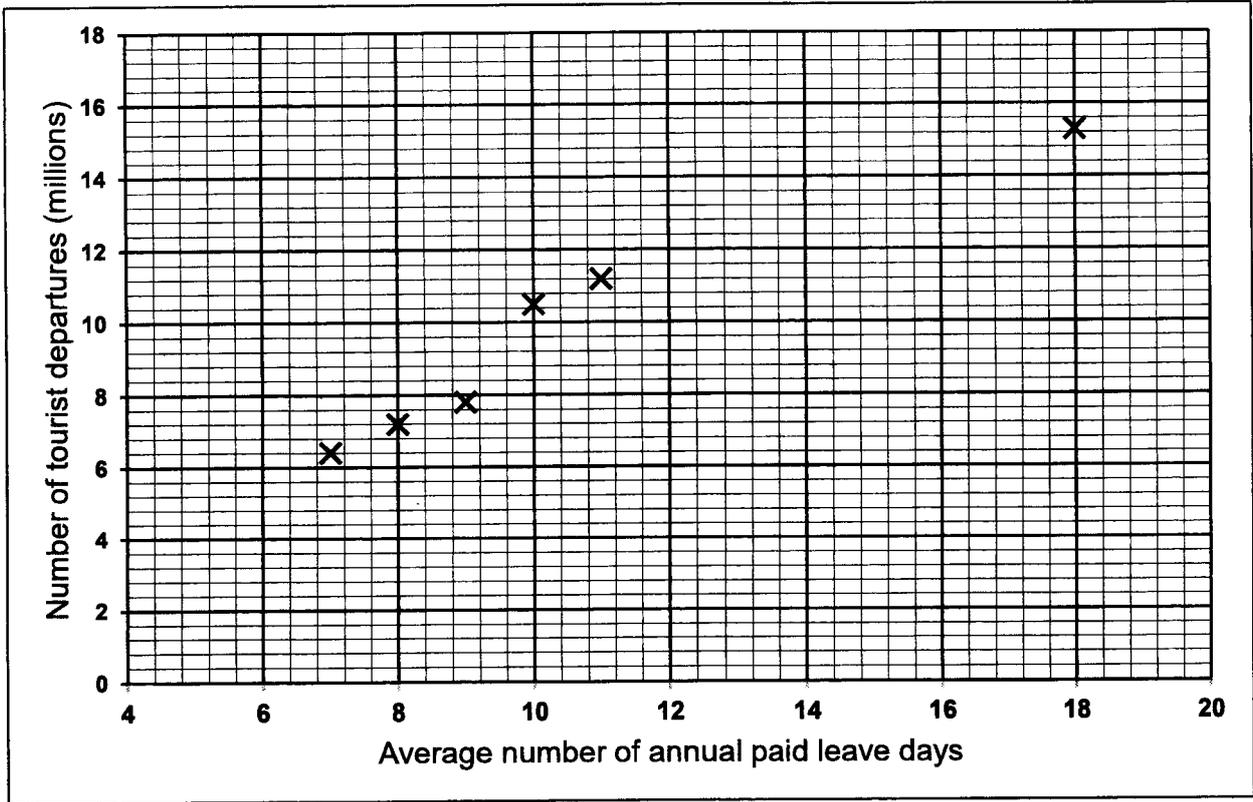

.....

.....

**[3]**

(ii) Using Table 2.1, plot the data for 2020 to 2022 on Fig. 2.1 and draw a best fit line. [3]

**Relationship between number of annual paid leave days and number of tourist departures**

**Fig. 2.1**

(c) Study Fig. 2.2 (Insert), which shows a sign placed near a tourist attraction in Singapore.

With reference to Fig. 2.2, explain how the sign helps Singapore achieve sustainable tourism development.

.....  
.....  
.....  
.....

**[2]**

(d) Using named examples, explain the role of international organisations in influencing sustainable tourism development.

.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....

**[4]**

**[Total: 15]**

**3 Cluster 3: Climate**

**(a)** Study Fig. 3.1 (Insert), which shows global temperature anomalies from 2013 to 2022. Global temperature anomalies refer to how much hotter each year was compared to the average in the 20th-century.

**(i)** Describe the trend in global temperature anomalies shown in Fig. 3.1.

.....  
.....  
.....  
.....  
.....  
.....  
.....

**[3]**

**(ii)** Suggest some anthropogenic factors that may have contributed to this trend.

.....  
.....  
.....  
.....  
.....  
.....

Answer **all** questions.

**1 Cluster 1: Geography in Everyday Life**

**(a)** Study Fig. 1.1 (Insert), which shows a garden in a housing estate in Singapore.

Using Fig. 1.1, explain how the garden may provide provisioning and cultural ecosystem services.

.....  
.....  
.....

.....**[2]**

**(b)** Study Fig. 1.2 (Insert), which shows the top three causes of residential fires in Singapore in 2019 and 2020.

**(i)** Using Fig. 1.2, compare the trend in the top three causes of residential fires between 2019 and 2020.

.....  
.....  
.....

.....**[2]**

**(ii)** Describe how fires can negatively affect the residents.

.....  
.....  
.....

.....**[2]**

**(iii)** Explain how building community resilience might reduce the risk of residential fires.

.....  
.....  
.....  
.....[2]

**(c)** Study Fig. 1.3 (Insert), which shows an activity for children conducted weekly in a community centre in Singapore.

Explain how the activity helps to enhance a sense of place for children.

.....  
.....  
.....  
.....[2]

**(d)** Study Fig. 1.4 (Insert), which shows a woman attacked by a wild boar in Singapore.

With reference to Fig. 1.4, describe the negative impacts that nature may bring to society.

.....  
.....  
.....  
.....[2]

- (e) Study Fig. 1.5 (Insert), which shows a recycling bin at a housing estate in Singapore.

With reference to Fig. 1.5, evaluate the effectiveness of recycling bins in promoting environmental stewardship in neighbourhoods in Singapore.

.....

.....

.....

.....

.....

.....

.....

**[3]**

**[Total: 15]**

**2 Cluster 4: Tectonics**

**(a)** Study Fig. 2.1 (Insert), which shows a diagram on magnetic striping.

Using Fig. 2.1, identify landform X and state whether rocks W or Y are older.

.....  
.....  
.....  
.....[2]

**(b)** Study Fig. 2.2 (Insert), which is a diagram showing the formation of a tsunami.

Using Fig. 2.2, describe the formation of a tsunami.

.....  
.....  
.....  
.....  
.....  
.....  
.....  
.....[4]
